

Our Company Name is Microbridge

Headquarter - United States

1. Current Attrition Rate: Measurement of the current rate at which employees are leaving the company.

Ans: For calculating current rate of employees leaving the company we have,

First I have applied filter on exit date for year 2022

Employees left the company in the current year (2022) = 7

[=COUNT(L506,L578,L602,L641,L697,L732,L752)]

Total employees in the company = 1000 [=COUNTA(A2:A1001)]

Rate of employees leaving = $(7/1000) * 100 = 0.7\%$

2. Ratio of Employees aged 60 or above: Proportion of employees aged 60 and above.

Ans: Aged 60 above employee ratio = $(113/1000)*100=11.3$

3. Gender Ratio: Ratio comparing the number of female employees to male employees.

Ans: Total Male = 482 Total Female =518 $518/482=1.0746888$ or 107%

Females employees to male employees per

4. Oldest Employee in Each Department & in Business unit: Identification of the oldest employee in every department.

Ans: Accounting = 64

Engineering = 65

IT = 65

Marketing = 65

Sales = 65

Finance = 65

Human Resources = 65

5. Total Employees Hired in the Last 3 Years (Based on Data): Count of employees hired within the last three years according to available data.

Ans: 220 employees hired in last 3 years

6 3 Highest Paid Employee: Identification of the employee with the highest salary.

Ans: Realyann Rios

Kinsley Vega

Silas Rivera

method:-sort desc by salary then find top 3

7. 3 Employee Receiving the Highest Bonus: Identification of the employee who received the highest bonus.

Ans: For this I have applied custom sort on Bonus column in Largest to smallest order.

Thomas padilla

Sophie silva

Isla wong
